 **POWER SOURCE**
Corded AC power only

Who It Is For

- ✓ Owners of wood or pellet stoves
- ✓ People who clean indoor fireplaces often
- ✓ Households needing sealed ash containment
- ✓ Users requiring a heat-resistant metal hose

Who It Is Not For

- ✗ Those needing cordless operation
- ✗ People who require very quiet vacuums
- ✗ Users needing large commercial capacity
- ✗ Buyers who want adjustable suction levels

Trade Offs to Consider

- Compact 4-gallon size needs frequent emptying
- Corded power limits reach without extension
- Short 1 m hose limits distant access
- About 80 dB can be loud indoors

Users Say

● POSITIVES

- ✓ Advertised strong suction for cold ash
- ✓ Includes HEPA filter and canister
- ✓ Compact design for easy storage

● COMPLAINTS

- ⚠ Single power level no variable suction
- ⚠ Conflicting wattage info listed
- ⚠ Listed noise level around 80 dB

How It Compares

- Smaller capacity than general shop vacs
- Metal-lined hose improves heat resistance
- HEPA sealed filtration vs basic filters

Choose This If...

- ✓ You need a compact ash vacuum for stoves
- ✓ You want sealed HEPA ash containment
- ✓ You require a heat-resistant metal-lined hose

Skip This If...

- ✗ You need cordless or long-reach cleaning
- ✗ You need very quiet operation under 60 dB
- ✗ You need industrial scale ash capacity
