Who It Is For

- ✓ Hosts who regularly cook for groups
- ✓ Cooks who want separate heat zones
- ✓ Outdoor users with propane access
- ✓ Home cooks preferring griddle cooking methods

Who It Is Not For

- ✗ Apartment residents without outdoor propane access
- ✗ People needing a lightweight portable stove
- ✗ Buyers requiring indoor or electric operation

Trade Offs to Consider

- Large footprint needs outdoor space
- Heavy 120 lb unit limits portability
- Propane use requires cylinder refills
- Griddle top requires regular cleaning and seasoning

Users Say

● POSITIVES

- ✓ High overall customer rating 4.7
- ✓ Large surface handles big cooks
- ✓ Even heat across griddle top

● COMPLAINTS

- ⚠ Heavy to move without help
- ⚠ Requires propane cylinder refills
- ⚠ Griddle surface needs regular seasoning

How It Compares

- Vs tabletop griddles much larger surface
- Vs 2-burner griddles more temperature control
- Vs charcoal grills offers faster even heating
- Vs built-in islands portable freestanding option

Choose This If...

- ✓ You host outdoor meals for groups
- ✓ You want four heat zones for multitasking
- ✓ You have outdoor propane and storage space

Skip This If...

- ✗ You need a lightweight ultra-portable cooker
- ✗ You cannot store or use propane
- ✗ You need an indoor or electric appliance
