

Bradley Smoker BCOLD Cold Smoke Adapter

QUICK BUYER GUIDE

Backyard cooks who want true cold smoking capability

At a Glance Specs

INTENDED USE

Cold smoke foods only

COMPATIBILITY

Fits Bradley electric smokers

CONSTRUCTION

Powder-coated steel body

SMOKE PATH

Flexible aluminum tube cools smoke

INSTALLATION

Tool-free removable attachment

DIMENSIONS & WEIGHT

17x11x12 in 10 lb

Who It Is For

-  Home cooks adding smoke flavor to delicate foods
-  Owners of Bradley electric smokers seeking cold options
-  Users who already use Bradley bisquette generators

Who It Is Not For

-  People without a Bradley electric smoker
-  Buyers who need a complete standalone cold smoker
-  Users who mainly want hot smoking or cooking

Trade Offs to Consider

-  Limited to Bradley electric smoker compatibility
-  Requires an existing bisquette generator to operate
-  Adds an external tube and extra setup
-  Adapter includes hardware only not fuel or burner

How It Compares

-  Converts an existing Bradley smoker instead of replacing it
-  Cools smoke using a flexible aluminum tube before food
-  Attaches between smoker tower and generator not a separate unit

Choose This If...

- ✓ You own a Bradley electric smoker and generator
- ✓ You plan to cold smoke cheese fish or sausage
- ✓ You prefer modifying your smoker over buying new equipment

Skip This If...

- ✗ You do not own a Bradley electric smoker
- ✗ You need a complete standalone cold smoking system
- ✗ You expect included fuel or a burner with purchase
