**Front storage rack included**

## Who It Is For

---

- ✓ Home cooks smoking whole chickens or brisket
- ✓ Grillers wanting both indirect smoke and direct searing
- ✓ Owners preferring manual damper temperature control
- ✓ Buyers with limited patio space

## Who It Is Not For

---

- ✗ Users who need gas or electric grills
- ✗ People wanting digital temperature control
- ✗ Those who require very high commercial capacity
- ✗ Shoppers needing an ultra portable lightweight grill

## Trade Offs to Consider

---

- Charcoal fuel adds flavor and maintenance
- Manual dampers require active monitoring
- 41 pound weight limits frequent relocation
- Medium cooking area fits moderate sized meals

## How It Compares

---

- More smoke flavor than typical gas grills
- Requires more hands on fueling than pellet smokers
- Smaller footprint than full size cabinet smokers

## Choose This If...

---

- ✓ You prefer charcoal smoking flavor
- ✓ You want both smoking and direct grilling
- ✓ You need a moderate cooking area under 500 sq in

## Skip This If...

---

- ✗ You need digital or precise temperature control
- ✗ You primarily use gas or electric grills
- ✗ You move the grill frequently
