## Who It Is For

---

- ✓ Home cooks who prefer charcoal grilling
- ✓ Cooking for about four to eight people
- ✓ Buyers who want easier ash cleanup
- ✓ Users who want fewer flare-ups with charcoal

## Who It Is Not For

---

- ✗ People needing very large cooking capacity
- ✗ Those who prefer gas or pellet grills
- ✗ Grillers wanting precise electronic temp control
- ✗ Users unwilling to manage charcoal fuel

## Trade Offs to Consider

---

- Requires charcoal fueling and ash cleanup
- 360 sq in fits medium not large meals
- Manual vents only no electronic controls
- Painted metal finish benefits from weather care

## Users Say

---

### ● POSITIVES

- ✓ Even heat from TRU-Infrared system
- ✓ Reduced flare-ups during cooking
- ✓ Porcelain-coated grates for easier cleaning

### ● COMPLAINTS

- ⚠ Charcoal sold separately
- ⚠ Assembly required after delivery
- ⚠ May be small for large gatherings

## How It Compares

---

- Versus gas grills charcoal flavor over propane convenience
- Versus kamado steel kettle not ceramic insulated body
- Versus portable charcoal larger cooking area and standing height

## Choose This If...

---

- ✓ You want charcoal flavor with fewer flare-ups
- ✓ You cook for families or small groups
- ✓ You prefer a simple freestanding charcoal kettle

## Skip This If...

---

- ✗ You need quick gas startup and controls
- ✗ You host frequent large gatherings
- ✗ You require precise electronic temperature control
