

Coleman 2000033049 RoadTrip 285 Portable Propane Grill

QUICK BUYER GUIDE

For campers and tailgaters needing a three-burner portable grill

At a Glance Specs

COOKING AREA
285 square inches

BURNERS
Three adjustable burners

MAX OUTPUT
Up to 20,000 BTUs

IGNITION
Push-button ignition system

PORTABILITY
Foldable legs and wheels

FUEL
16.4 oz propane canister required

WEIGHT
Approximately 46.7 pounds

Who It Is For

- ✓ Campers who need a portable multi-burner grill
- ✓ Tailgaters who want quick setup and mobility
- ✓ Outdoor cooks serving small groups

Who It Is Not For

- ✗ Households wanting a permanent backyard grill
- ✗ Users who need very large cooking capacity
- ✗ Indoor or enclosed-space cooking

Trade Offs to Consider

- Portable design limits overall cooking capacity
- Uses small 16.4 oz canister so shorter runtime
- Requires assembly before first use

Users Say

● POSITIVES

- ✓ Portable with foldable legs and wheels
- ✓ Three burners improve temperature control
- ✓ Integrated thermometer and removable water pan

● COMPLAINTS

- ⚠ Requires separate 16.4 oz propane canister
- ⚠ Assembly required out of the box
- ⚠ Heavier than tabletop portable grills

How It Compares

- Vs single-burner stoves: more space and control
- Vs full-size patio grills: less capacity and permanence
- Vs other portables: three burners allow zoned heating

Choose This If...

- ✓ You need a portable grill with three burners
- ✓ You prioritize quick setup and mobility
- ✓ You regularly cook outdoors for small groups

Skip This If...

- × You want a permanent high-capacity backyard grill
- × You need long continuous cook times from large tanks
- × You plan to cook indoors or in enclosed spaces
