

Hamilton Beach 38546 3-in-1 Electric Grill Griddle

QUICK BUYER GUIDE

Home cooks who need two-zone indoor grill and griddle

At a Glance Specs

COOKING MODES

Grill griddle or both

POWER

1400 watts heating power

TEMPERATURE RANGE

Adjustable to 425°F

COOKING AREA

180 square inches surface

COOKING ZONES

Two independent heat zones

COOKING PLATES

**Reversible nonstick
dishwasher safe**

DIMENSIONS & WEIGHT

23 x 12.5 x 6.7 inches

Who It Is For

- ✓ Households cooking up to eight servings
- ✓ Users who need independent temperature zones
- ✓ Buyers wanting removable dishwasher-safe plates
- ✓ Apartment or condo residents lacking outdoor grills

Who It Is Not For

- ✗ People who prefer charcoal or gas grilling
- ✗ Buyers needing larger than 180 square inches
- ✗ Users requiring temperatures above 425°F
- ✗ Those seeking ultra-compact travel cookers

Trade Offs to Consider

- Electric 1400W is convenient but lower peak heat than gas
- Two-zone flexibility reduces continuous full-size single surface
- Reversible plates increase versatility but limit dedicated surface
- Dishwasher-safe parts ease cleanup but need storage space

Users Say

● POSITIVES

- ✓ Combines grill and griddle in one unit
- ✓ Independent zones let you cook different foods together
- ✓ Removable plates and drip tray simplify cleaning

● COMPLAINTS

- ⚠ Not as hot as outdoor gas grills
- ⚠ May feel small for very large gatherings
- ⚠ Basic controls without advanced presets or timers

How It Compares

- Versus outdoor gas grills: safer indoor use but lower peak heat
- Versus single electric griddle: adds grill ridges and zone control
- Versus large countertop griddles: smaller area but more cooking options

Choose This If...

- ✓ You need both grilling and griddling indoors
- ✓ You want two independent temperature zones
- ✓ You prefer removable dishwasher-safe plates
- ✓ You have limited or no outdoor grilling space

Skip This If...

- ✗ You prioritize outdoor charcoal or gas performance
- ✗ You require a larger than 180 sq inch surface
- ✗ You need cooking above 425°F
