 **COMPATIBILITY**  
**Fits Kamado Classic grills**

 **INSTALLATION**  
**Peel and press install**

## Who It Is For

---

- ✓ Owners of Kamado Classic needing full gasket replacement
- ✓ People with smoke or heat leakage issues
- ✓ Buyers wanting a higher temperature gasket material
- ✓ Users who prefer peel and stick installation

## Who It Is Not For

---

- ✗ Owners of non-kamado or gas grills
- ✗ Shoppers who need pre-cut OEM gasket rings
- ✗ People preferring soft wool style gaskets
- ✗ Users who avoid DIY installations

## Trade Offs to Consider

---

- Wire mesh is more durable but firmer than wool
- Self-adhesive backing simplifies install but is permanent
- 150 in length covers whole grill but may need trimming
- Mesh and steel core add weight compared to wool

## Users Say

---

### ● POSITIVES

- ✓ Tighter smoke seal improves temperature control
- ✓ Durable wire mesh lasts longer than wool gaskets
- ✓ Peel and stick adhesive speeds up installation

### ● COMPLAINTS

- ⚠ May require trimming for nonstandard lids
- ⚠ Adhesive can fail on dirty surfaces
- ⚠ Stiffer material can affect lid alignment initially

## How It Compares

---

- Vs factory wool gasket: more heat resistant and durable
- Vs pre-cut OEM rings: offers full length that requires trimming
- Vs rope gaskets: firmer seal with steel mesh core

## Choose This If...

---

- ✓ You own a Kamado Classic style grill
- ✓ You want a high-temp peel and stick replacement
- ✓ You prefer longer lasting wire mesh over wool

## Skip This If...

---

- × You need pre-shaped OEM gasket rings
- × You prefer the softer feel of wool gaskets
- × You cannot perform a simple peel and trim install
