## Who It Is For

---

-  Cooking for large families or groups
-  Home cooks preferring gas burner control
-  Users who want fast even heating
-  Outdoor cooks needing prep space and hooks

## Who It Is Not For

---

-  Small balcony or limited space dwellers
-  Buyers wanting built-in permanent installation
-  Charcoal or electric grill preference
-  Solo campers needing ultra-light portable grills

## Trade Offs to Consider

---

-  Large cooking area needs large footprint
-  Porcelain cast-iron grates need regular cleaning
-  Assembly required and heavier at 81 lbs
-  Electronic ignition requires one AA battery

## How It Compares

---

- Smaller two-burner grills: much smaller cooking area
- Charcoal grills: different flavor slower heat control
- Built-in units: this is a freestanding cart

## Choose This If...

---

- ✓ You cook for large groups regularly
- ✓ You prefer gas grilling with multiple burners
- ✓ You want extra prep tables and tool hooks

## Skip This If...

---

- ✗ You have limited outdoor space
- ✗ You prefer charcoal or electric grilling
- ✗ You need a lightweight backpackable grill
- ✗ You want a built-in permanent grill
