Home cooks who need a mid-size propane grill and side burner

At a Glance Specs

MAIN BURNERS

4 burners 8,000 BTU each

SIDE BURNER

One side burner 10,000 BTU

COOKING AREA

542 square inches total

GRATES MATERIAL

Porcelain-enameled cast iron

FRAME MATERIAL

Stainless steel frame

STORAGE & PREP

Side shelf and bottom cabinet

CLEANUP

Push-out grease tray

Who It Is For

- ✓ Cook for medium groups 4 to 8 people
- ✓ Need a side burner for sauces or sides
- ✓ Prefer porcelain-enameled cast iron grates
- ✓ Want integrated storage and prep surfaces

Who It Is Not For

- ✗ Require a compact portable or tailgate grill
- ✗ Need commercial restaurant grade equipment
- ✗ Want smart app or Wi-Fi controls
- ✗ Prefer fully assembled out of box

Trade Offs to Consider

- Larger footprint needs outdoor space
- Assembly required before first use
- Stainless steel may show surface stains
- No advanced electronic or smart features
- One year manufacturer warranty only

How It Compares

- Smaller than full-size 3-piece built-in grills
- More cooking area than compact portable models
- Fewer pro features than commercial grade units

Choose This If...

- ✓ You need about 542 square inches cooking area
- ✓ You want a built-in side burner
- ✓ You value porcelain-enameled cast iron grates
- ✓ You have yard space for a mid-size grill

Skip This If...

- ✗ You need a highly portable tailgate grill
- ✗ You require app or smart connectivity
- ✗ You plan commercial level daily use
- ✗ You want a warranty longer than one year
