## Who It Is For

---

- ✓ Home bartenders learning cocktail techniques
- ✓ People who enjoy smoked whiskey or bourbon
- ✓ Hosts who want table-side smoke presentation
- ✓ Shoppers looking for a barware gift

## Who It Is Not For

---

- ✗ Those needing heavy duty food smokers
- ✗ Users who avoid any smoke aroma
- ✗ People wanting automated electric smokers
- ✗ Buyers who need industrial scale smoking

## Trade Offs to Consider

---

- Designed for single drinks not large batches
- Requires manual lighting and monitoring of chips
- Provides surface aroma not long curing
- Small chip supply may need restocking

## How It Compares

---

- Simpler than electric tabletop smokers
- More portable than full-size food smokers
- Includes four flavors unlike single-flavor kits

## Choose This If...

---

- ✓ You want to add smoke to cocktails
- ✓ You need a compact portable smoker kit
- ✓ You want multiple wood flavor options
- ✓ You want stainless steel and wood materials

## Skip This If...

---

- ✗ You need to smoke large food quantities
- ✗ You prefer electric or battery operation
- ✗ You avoid handling burning wood chips
- ✗ You need professional long-term food curing
