## Who It Is For

---

- ✓ Home bartenders adding smoke to cocktails
- ✓ Small home bars with limited space
- ✓ People who prefer flameless tools
- ✓ Gift shoppers buying novelty barware

## Who It Is Not For

---

- ✗ Professional bars needing high-volume smoking
- ✗ Users wanting long smoke infusion sessions
- ✗ Those who prefer open-flame torches
- ✗ People who avoid any smoke exposure

## Trade Offs to Consider

---

- Flameless design limits smoke duration
- Short preset smoke time each activation
- Plastic housing feels lightweight
- Limited included wood chip supply

## Users Say

---

### ● POSITIVES

- ✓ No butane or open flame needed
- ✓ Includes multiple wood flavors
- ✓ USB rechargeable for repeated use

### ● COMPLAINTS

- ⚠ Short 22-second smoke bursts
- ⚠ Light color resets after restart
- ⚠ Plastic construction can feel cheap

## How It Compares

---

- Vs butane torch safer flameless ignition
- Vs cold smoke gun smaller smoke volume
- Vs non-electric smokers portable and rechargeable

## Choose This If...

---

- ✓ You want flameless cocktail smoking
- ✓ You need a compact portable smoker
- ✓ You value included wood chip variety
- ✓ You prefer USB rechargeable devices

## Skip This If...

---

- × You need long continuous smoke sessions
- × You run a busy commercial bar
- × You want a metal heavy-duty smoker
- × You require open-flame searing or charring
