Who It Is For

-  Cooks who grill for large groups
-  Households with natural gas hookup
-  Users who want high-heat searing
-  Buyers who prefer stainless steel durability

Who It Is Not For

-  People who only use propane
-  Those needing a compact portable grill
-  Renters without outdoor gas access
-  Buyers unwilling to assemble large items

Trade Offs to Consider

-  Requires natural gas installation
-  Heavy at about 241 pounds
-  Assembly required before use
-  Designed for outdoor use only

Users Say

● POSITIVES

- ✓ 4.3 average rating from 223 reviews

How It Compares

- Larger cooking area than many home grills
- Includes infrared sear and rotisserie features
- Requires fixed natural gas unlike propane carts

Choose This If...

- ✓ You need 900 sq.in cooking for gatherings
- ✓ You have a natural gas connection available
- ✓ You want infrared sear and rotisserie options
- ✓ You prefer durable stainless steel construction

Skip This If...

- × You only use propane or portable grills
- × You need a lightweight or compact unit
- × You lack space for a 66.5 inch wide grill
- × You do not want to assemble a large cart
