 **SETUP AND WEIGHT**
Assembly required 34.9 pounds

Who It Is For

-  Home cooks serving 4–6 people
-  Users who want combined grill and smoker
-  People who cook outdoors regularly
-  Tailgaters and campers needing portable unit

Who It Is Not For

-  Indoor cooking or apartment use
-  Buyers requiring electric or gas grills
-  Those unwilling to assemble products
-  Users needing precise digital temperature control

Trade Offs to Consider

-  Requires frequent charcoal tending
-  Assembly needed before first use
-  Single main rack limits capacity
-  Less precise than pellet smokers

Users Say

● POSITIVES

- ✓ Large cooking area for small groups
- ✓ Mobility thanks to wheels and handles
- ✓ Built-in thermometer for monitoring

● COMPLAINTS

- ⚠ Requires assembly out of the box
- ⚠ Charcoal cleanup and fuel handling
- ⚠ Single rack reduces simultaneous cooking

How It Compares

- More smoking space than kettle grills
- Less temperature automation than pellet smokers
- Uses charcoal only unlike gas grills
- Larger and heavier than portable camp grills

Choose This If...

- ✓ You need combined grill and smoker
- ✓ You cook outdoors for small groups
- ✓ You accept charcoal fuel and upkeep

Skip This If...

- × You only cook indoors
- × You prefer gas or electric grills
- × You want digital temperature automation
