

recteq RT-B380 Bullseye Stainless Steel Pellet Grill

QUICK BUYER GUIDE

Home cooks who want wood-pellet grilling and high-heat searing

At a Glance Specs

COOKING AREA
380 square inches

MAX GRILL TEMPERATURE
Up to 749°F

FUEL TYPE
Wood pellets only

HOPPER CAPACITY
15 pound hopper capacity

CONSTRUCTION
Stainless steel components

WEIGHT AND FOOTPRINT
70 lb and medium footprint

FORM FACTOR
Freestanding stainless steel grill

Who It Is For

-  Home cooks serving families or small groups
-  People who want high-temperature searing
-  Users who prefer cooking with wood pellets
-  Buyers who value stainless steel durability

Who It Is Not For

-  Frequent travelers wanting ultra-light portable grills
-  Shoppers who only use gas or electric grills
-  Residents with very limited outdoor space
-  Solo cooks needing a very compact smoker

Trade Offs to Consider

-  Stainless components increase longevity but add weight
-  15 lb hopper extends run time but adds bulk
-  749°F max enables searing but raises pellet use
-  Freestanding design requires dedicated outdoor placement

Users Say

● POSITIVES

- ✓ Even cooking across temperatures
- ✓ Reaches very high searing temperatures
- ✓ Durable stainless steel components
- ✓ 15 lb hopper reduces refills

● COMPLAINTS

- ⚠ Heavy to move at 70 pounds
- ⚠ Requires purchasing wood pellets separately
- ⚠ Average customer rating 3.9/5

How It Compares

- More stainless components than many competitors
- Higher max temperature than many pellet grills
- Mid-size 380 sq in cooking area
- Heavier than small portable pellet grills

Choose This If...

- ✓ You cook for family meals and guests
- ✓ You want searing and low-and-slow smoking
- ✓ You prefer wood-pellet smoky flavor
- ✓ You prioritize durable stainless construction

Skip This If...

- ✗ You need an ultra-light portable grill
- ✗ You only use gas or electric grills
- ✗ You have very limited outdoor space
- ✗ You require plug-in electric operation
