## Who It Is For

---

- ✓ Cooks who smoke meats regularly
- ✓ People needing mid-size cooking capacity
- ✓ Users who want set-and-forget temperature control
- ✓ Hosts who cook for small groups

## Who It Is Not For

---

- ✗ Those seeking a lightweight portable grill
- ✗ Homes without outdoor electrical access
- ✗ Buyers preferring gas or charcoal-only grills
- ✗ Users needing very large cooking capacity

## Trade Offs to Consider

---

- Needs electricity to operate
- Requires buying wood pellets
- Weight about 125 pounds
- Temperature can vary  $\pm 15^{\circ}\text{F}$

## Users Say

---

### ● POSITIVES

- ✓ Delivers noticeable wood-fired flavor
- ✓ Handles diverse cooking methods
- ✓ Consistent temps with Digital Pro Controller

### ● COMPLAINTS

- ⚠ Heavy to move and position
- ⚠ Pellets add ongoing fuel cost
- ⚠ Hopper refill needed for very long cooks

## How It Compares

---

- Vs charcoal: easier temp management
- Vs gas: stronger wood smoke flavor
- Vs larger pellet grills: smaller capacity
- Vs portable smokers: more stable but heavier

## Choose This If...

---

- ✓ You want wood-fired flavor without charcoal
- ✓ You need mid-size grill and smoker combo
- ✓ You have outdoor power and storage space
- ✓ You plan regular low-and-slow smoking

## Skip This If...

---

- ✗ You lack outdoor electrical outlet
- ✗ You prefer ultra-portable lightweight grills
- ✗ You only cook for one person
- ✗ You want no ongoing pellet purchases
