**Plug-in electric power**

**HOPPER CAPACITY**  
**18-pound pellet hopper**

**SMART CONTROL**  
**WiFIRE app remote control**

**PORTABILITY**  
**All-terrain wheels included**

## Who It Is For

---

-  Cooks serving four to six people
-  Backyard hosts of occasional gatherings
-  Owners who want WiFIRE app control
-  Users focused on low-and-slow smoking

## Who It Is Not For

---

-  Campers needing ultra-light grills
-  Homes lacking outdoor electrical outlets
-  Buyers committed to gas or charcoal

## Trade Offs to Consider

---

-  Requires electricity so not off-grid
-  Needs wood pellets and storage space
-  Heavier 124 lb unit limits portability
-  Top heat capped at 500°F for searing

## How It Compares

---

- Vs gas grills: uses wood pellets not propane
- Vs charcoal grills: more consistent temperature control
- Vs larger pellet grills: mid-size 575 sq in capacity

## Choose This If...

---

- ✓ You want genuine wood-pellet smoke flavor
- ✓ You need mid-size 575 square inch capacity
- ✓ You prefer a grill with built-in meat probe
- ✓ You value faster temperature recovery during cooks

## Skip This If...

---

- ✗ You require a travel-friendly grill under 50 pounds
- ✗ You cannot or will not buy wood pellets
- ✗ You need searing temperatures above 500°F
- ✗ You want zero pellet hopper maintenance
