21 by 12 inch surface

 **PLATE THICKNESS**
10 mm iron cooking plate

 **TEMPERATURE RANGE**
Adjustable 50 to 300°C

 **CONSTRUCTION**
Stainless steel body

 **CLEANUP**
Removable oil box and drain

Who It Is For

-  Small restaurants and food stalls
-  Food trucks and concession stands
-  Home cooks wanting restaurant-style cooking
-  Snack bars and quick-service kitchens

Who It Is Not For

-  Very high-volume restaurant operations
-  Portable camping or backpacking cooks
-  Operations requiring gas fuel
-  Buyers without 110V outlet access

Trade Offs to Consider

-  Heavy at 37 pounds
-  Countertop size limits batch capacity
-  Manual control with six settings
-  Requires standard 110V power

How It Compares

- Smaller footprint than full-size griddles
- Heavier than portable electric griddles
- Electric power avoids gas hookups
- Iron plate differs from nonstick skillets

Choose This If...

- ✓ You need a 22-inch countertop griddle
- ✓ You want adjustable 50–300°C heat
- ✓ You prefer stainless steel construction
- ✓ You need included spatulas and brushes

Skip This If...

- ✗ You need very large griddle capacity
- ✗ You lack access to a 110V outlet
- ✗ You need a lightweight portable grill
- ✗ You require a non-iron nonstick surface
