2 spatulas brush 4 pads

Who It Is For

- ✓ Small restaurants and food stalls
- ✓ Caterers needing countertop searing capacity
- ✓ Home cooks wanting flat-top batch cooking
- ✓ Shops and kiosks without gas hookups

Who It Is Not For

- ✗ Large restaurants needing full-size griddle
- ✗ Buyers who require PTFE nonstick coating
- ✗ Users wanting ultra lightweight portable units
- ✗ Installations requiring hardwired gas connections

Trade Offs to Consider

- Compact surface limits large batch cooking
- 1750W draws noticeable electrical power
- Iron plate durable but needs scrubbing
- Heavier unit reduces easy portability

Users Say

● POSITIVES

- ✓ Wide temperature range for searing
- ✓ Stainless body appears durable
- ✓ Includes spatulas brushes and pads

● COMPLAINTS

- ⚠ Unit weight around 35.7 pounds
- ⚠ Cooking area smaller than full griddles
- ⚠ No PTFE or PFOA nonstick coating

How It Compares

- Vs full commercial griddle: smaller portable footprint
- Vs gas griddle: electric no gas hookup needed
- Vs nonstick electric: iron plate requires more maintenance
- Vs cast-iron pan: larger flat surface for batches

Choose This If...

- ✓ You need a countertop electric flat-top
- ✓ You want high heat for searing
- ✓ You prefer stainless exterior with included tools
- ✓ You operate where gas is unavailable

✗ Skip This If...

- ✗ You need full-size high-volume griddle capacity
- ✗ You require a PTFE nonstick cooking surface
- ✗ You need a lighter ultra-portable unit
- ✗ You require gas or built-in installation
