

Weber Smokey Joe Charcoal Portable Grill

QUICK BUYER GUIDE

People who need a compact lightweight charcoal grill for travel

At a Glance Specs

COOKING AREA

14 square inches

FUEL TYPE

Charcoal fuel only

PORTABILITY

Compact lightweight design

MATERIALS

Porcelain-enameled bowl and steel

HANDLES

Glass-reinforced nylon handles

ASH DISPOSAL

Aluminum ash catcher

ASSEMBLY

Some assembly required

Who It Is For

- ✓ Travelers who want a portable grill
- ✓ Weekend campers with vehicle access
- ✓ People with small outdoor spaces
- ✓ Cookers who prefer simple charcoal setups

Who It Is Not For

- ✗ Hosts who cook for large crowds
- ✗ Users needing gas or electric grills
- ✗ People wanting advanced temperature control

Trade Offs to Consider

- Limited cooking area restricts meal size
- Charcoal fuel requires more setup time
- No multiple cooking zones
- Lightweight shell trades off heat retention

Users Say

● POSITIVES

- ✓ Portable design works well for travel
- ✓ Porcelain-enameled finish resists rust
- ✓ Aluminum ash catcher eases cleanup

● COMPLAINTS

- ⚠ Cooking surface too small for groups
- ⚠ Charcoal takes time to light and manage
- ⚠ Some users find assembly required

How It Compares

- Smaller than full-size kettle grills
- More portable than standard charcoal units
- Provides charcoal flavor unlike gas grills

Choose This If...

- ✓ You need a compact charcoal grill for travel
- ✓ You grill for one to a few people
- ✓ You want simple charcoal cooking with easy cleanup

Skip This If...

- × You regularly cook for large groups
- × You need precise temperature control
- × You prefer gas or electric grills
