

Wilprep 12-inch Gas Countertop Radiant Charbroiler

QUICK BUYER GUIDE

For small commercial kitchens needing a compact high-heat gas charbroiler

At a Glance Specs

FOOTPRINT
12 in wide countertop

HEAT OUTPUT
35,000 BTU output

GRATES
Two reversible cast-iron grates

ADJUSTABLE HEIGHT
Three-position grate heights

FUEL COMPATIBILITY
Natural gas or LPG

CONSTRUCTION AND CERTIFICATION
430 stainless steel CSA certified

Who It Is For

- ✓ Small commercial kitchens
- ✓ Food trucks and pop-up vendors
- ✓ Caterers needing portable broiling
- ✓ Home cooks with gas hookups

Who It Is Not For

- ✗ High-volume restaurant operations
- ✗ Users without a gas connection
- ✗ Those requiring electric appliances

Trade Offs to Consider

- High heat not for low-temperature cooking
- 12 in width limits batch size
- Requires gas connection and regulator
- Cast-iron grates add cleaning effort

Users Say

● POSITIVES

- ✓ Strong 35,000 BTU U-shaped burner
 - ✓ Reversible adjustable cast-iron grates
 - ✓ Includes LPG orifices and regulator
 - ✓ CSA sanitation and stainless construction
-

● COMPLAINTS

- ⚠ Limited cooking width for batches
- ⚠ Needs permanent gas hookup installation
- ⚠ Cast-iron grates require regular maintenance

How It Compares

- Smaller footprint than full-size broilers
- Higher heat than countertop electric grills
- Requires gas unlike many electric options
- Less capacity than floor-standing units

Choose This If...

- ✓ You need compact high-heat broiler
- ✓ You have an existing gas hookup
- ✓ You want adjustable cast-iron grates
- ✓ You require CSA sanitation certification

Skip This If...

- ✗ You run high-volume service
- ✗ You lack natural gas or LPG
- ✗ You need large batch capacity
