## Who It Is For

---

-  Home cocktail makers adding smoke to drinks
-  Buyers gifting a whiskey-themed kit
-  Hosts wanting a portable table-side smoker
-  Campers who prefer compact smoking tools

## Who It Is Not For

---

-  Commercial bars needing high-volume smoking tools
-  Users who prefer butane or torch fuel
-  People seeking long-term barrel aging methods
-  Anyone who cannot recharge battery-powered devices

## Trade Offs to Consider

---

-  Electric ignition removes butane but needs charging
-  Delivers quick surface smoke not extended aging
-  Small smoke output suited for single drinks
-  Included wood chips provide variety but limited supply

## Users Say

---

### ● POSITIVES

- ✓ Rechargeable electric ignition replaces butane
- ✓ Six wood chip flavors included
- ✓ Customizable RGB and warm LED lighting

### ● COMPLAINTS

- ⚠ Requires recharging for extended sessions
- ⚠ Limited smoke volume per use
- ⚠ Wood chips are a limited onetime supply

## How It Compares

---

- Butane handheld smokers provide longer continuous flame
- Barrel aging yields deeper long-term flavor
- Larger electric smokers produce more smoke volume
- Single-use chip smokers are cheaper but less flexible

## Choose This If...

---

- ✓ You want quick drink-level smoke infusion
- ✓ You prefer rechargeable electric ignition over butane
- ✓ You value included wood flavor variety and presentation

## Skip This If...

---

- × You need heavy-duty smoke for many drinks
- × You prefer barrel aging for long-term flavor
- × You cannot or will not recharge batteries
